

Top Dog Trading Review

This is a review of the Top Dog Trading Course offered by topdogtrading.com created by expert professional trader Dr Barry Burns. I bought both courses over 1 year ago and was immediately impressed by both the quantity and quality of the content. This is my personal review of these trading courses. All the courses offered have online FAQ's and follow up email support for your individual questions

Foundations Course: Cycles and Trends

This trading course gives you the basics of the methodology used by Barry and provides the foundation for all of the more advanced techniques taught in later courses. This course teaches you how to time the market with Swiss Clock precision so you can trade profitably and worry free with crystal clear entries and exits.

The course includes:

2 Full Color Manuals in PDF format and over 14 very detailed videos

This course explains the basics of how any market trades, no matter if you trade stocks, Forex, futures, gold, oil or bonds the principals explained in this course will hold true. Barry breaks down how the market works by explaining the 5 "secret" energies of the market, and what's more important, how to use them and which indicators can be used to display them.

There are many great things about this trading course, here are a some of them:

- The technical indicators used are very simple and easy to understand, they are found on virtually every chart trading service and the parameters used are fully explained and documented
- The principals taught in the course can be applied to any time frame so it does not matter if you are a scalper, a day trader, a swing trader, a position trader or a long term investor. Once learnt you can use them on monthly, weekly, daily, hour, 30 minutes, 15 minutes, 5 minutes or 1 minute charts, it works in whatever time period you trade.
- The content of the videos and the PDF manuals are not the same, there is some overlap of the basics but both are very detailed and contain so much information and insights that you really will need to watch the videos and read the manuals many times over to get the full benefit

In summary this course is highly recommended and of course there is the 90 days 100% money back guarantee so there is really zero risk on your part in trying out the course. I think you will like it a lot. The easy way to check it out is to simply subscribe to the free 5 day video course <http://www.topdogstrader.com/free> . In this free course you get a lot of very good trading education that could easily be sold for \$99, including of course the now famous Rubber band Trade Setup that you really don't want to miss.
